The Professor Is In Karen Kelsky,2015-08-04 The definitive career guide for grad students, adjuncts, post-docs and anyone else eager to get tenure or turn their Ph.D. into their ideal job Each year tens of thousands of students will, after years of hard work and enormous amounts of money, earn their Ph.D. And each year only a small percentage of them will land a job that justifies and rewards their investment. For every comfortably tenured professor or well-paid former academic, there are countless underpaid and overworked adjuncts, and many more who simply give up in frustration. Those who do make it share an important asset that separates them from the pack: they have a plan. They understand exactly what they need to do to set themselves up for success. They know what really moves the needle in academic job searches, how to avoid the all-too-common mistakes that sink so many of their peers, and how to decide when to point their Ph.D. toward other, non-academic options. Karen Kelsky has made it her mission to help readers join the select few who get the most out of their Ph.D. As a former tenured professor and department head who oversaw numerous academic job searches, she knows from experience exactly what gets an academic applicant a job. And as the creator of the popular and widely respected advice site The Professor is In, she has helped countless Ph.D.'s turn themselves into stronger applicants and land their dream careers. Now, for the first time ever, Karen has poured all her best advice into a single handy guide that addresses the most important issues facing any Ph.D., including: -When, where, and what to publish -Writing a foolproof grant application - Cultivating references and crafting the perfect CV -Acing the job talk and campus interview -Avoiding the adjunct trap - Making the leap to nonacademic work, when the time is right The Professor Is In addresses all of these issues, and many more.

*Ask a Manager* Alison Green,2018-05-01 From the creator of the popular website *Ask a Manager* and New York's work-advice columnist comes a witty, practical guide to 200 difficult professional conversations—featuring all-new advice! There's a reason Alison Green has been called “the Dear Abby of the work world.” Ten years as a workplace-advice columnist have

taught her that people avoid awkward conversations in the office because they simply don't know what to say. Thankfully, Green does—and in this incredibly helpful book, she tackles the tough discussions you may need to have during your career. You'll learn what to say when • coworkers push their work on you—then take credit for it • you accidentally trash-talk someone in an email then hit “reply all” • you're being micromanaged—or not being managed at all • you catch a colleague in a lie • your boss seems unhappy with your work • your cubemate's loud speakerphone is making you homicidal • you got drunk at the holiday party Praise for Ask a Manager “A must-read for anyone who works . . . [Alison Green's] advice boils down to the idea that you should be professional (even when others are not) and that communicating in a straightforward manner with candor and kindness will get you far, no matter where you work.”—Booklist (starred review) “The author's friendly, warm, no-nonsense writing is a pleasure to read, and her advice can be widely applied to relationships in all areas of readers' lives. Ideal for anyone new to the job market or new to management, or anyone hoping to improve their work experience.”—Library Journal (starred review) “I am a huge fan of Alison Green's Ask a Manager column. This book is even better. It teaches us how to deal with many of the most vexing big and little problems in our workplaces—and to do so with grace, confidence, and a sense of humor.”—Robert Sutton, Stanford professor and author of The No Asshole Rule and The Asshole Survival Guide “Ask a Manager is the ultimate playbook for navigating the traditional workforce in a diplomatic but firm way.”—Erin Lowry, author of Broke Millennial: Stop Scraping By and Get Your Financial Life Together

**How to Write a CV If You Have Little Or No Work Experience** Vlad Mackevic, 2017-11-23 How to Write a CV if You Have Little or No Work Experience. A guide for students and recent graduates on writing effective CVs, covering letters and application forms. Vlad Mackevic, #1 best-selling Amazon Kindle author (College and University section) So, you are applying for a job. Perhaps the employer has asked for a CV or perhaps you need to fill in an application form. You are a student, or a fresh graduate with not too much serious experience and you are not quite sure how to show your potential employer that you're brilliant. This book is what you need. It teaches you to write brilliant, effective, impact-making CVs. The book answers several very important questions: What skills are almost all employers looking for? How do you present yourself professionally? How can you extract valuable information from the little work experience you've got? How do you present your work experience so that it looks impressive? What should you do if you've never had a paid job? What is more important - the duties or the achievements? How do you write covering letters and application forms that will get you interviews? What is more, this book gives you advice on how to get work experience and what counts as work experience. Extract from the book (published with the author's permission) The purpose of your CV is to get you an interview, not a job. This means that you need to impress your potential employers and make them interested. Please also remember that you will need to write a CV in response to a job advertisement. These usually contain two documents: the job description with a list of tasks and the person specification with a list of skills and qualities that an ideal candidate for that job should have. The

contents of your CV will depend on the contents of these two documents. So, here are the main elements that CVs are made of, from the top to the bottom: 1. Your Name and Surname at the top, in a larger font. DO NOT write 'Curriculum Vitae' or 'CV'. Your potential employer knows that they are reading a CV. There is no need to tell them that. 2. Your contact details: your address and postcode, telephone number and email address. 3. Your Personal Profile (optional). I will write more about it in Chapter 5: Personal Profile. 4. Education. Here is your first chance to shine and stand out. See more in Chapter 6: Education and How to Talk about It. 5. Skills. In a skills-based CV, the Skills section precedes the Work Experience section and is very large. In an experience-based CV, the Skills section is much smaller: it only contains 'hard skills' such as languages, numeracy and IT and comes after the Work Experience section. There are many skills that you can present in your CV. The main ones are: Communication (spoken and written); this includes writing and presentation skills Commercial awareness (knowing how businesses operate) Customer Service Teamwork (all about co-operation and helping others) Planning and Organising Motivation and Working on your own initiative Information Technology and Computer Literacy (including internet-based research skills) Languages Leadership - this one deserves a separate discussion and I will address this skill in Chapter 8. In short, a leader is not just a manager. A leader is someone who is able to spot a problem before anyone else does, and takes the necessary steps to solve it. Willingness to Learn When you mention your skills, they should be accompanied by specific examples and evidence demonstrating that you, indeed, possess them. 6. Work Experience. Chapter 7 will explain why you don't even need a job to build a great CV because it is enough to be socially active at university.

It is often said that "resumes are your ticket to job searching success." Resumes are still the not so secret weapon to landing a job. You won't win a lottery if you don't have a ticket and you are unlikely to be invited for a job interview if you don't have a dynamic, effective resume that features you as the solution to a problem. Your resume is your ticket that leads to being invited for an interview where you can expand upon your value. An effective, eye-catching resume will get you an interview. We show you how to craft and fine-tune a magnetic resume that will attract an employer's attention. Are you networking? Many job search industry professionals say that networking is the single most effective strategy for landing your next job. You may think you don't know anyone who can help you with your job search. But you know more people than you think, and they are willing to help you. However, you need to reach out and connect with them first. "It's not who you know... it's who knows you know..." Is the thought of a job interview keeping you awake at night? You're Hired! Job Search Strategies That Work systematically builds your skills to excel at interview questions and help you sleep at night. From our experience, one of the biggest problems job seekers often face is they feel they are coming from an inferior position and they don't have a lot of personal power. The belief being that the Employer has the superior position and has all the power. Sound familiar? Yes, they have the job and they have the power to give you the job ... or not. What you may not realize is many Hiring Managers are under similar pressures as you, the job seeker. They are accountable to their superiors should the person they hire not work out. They have the pressure of finding the right candidate for the vacancy they need to fill. You're Hired! Job Search Strategies That Work levels the playing field between you and the employer. Your task is to become the only choice. The right choice!
